

## C# Developer and Tester in Houten (full-time)

PalmSens BV develops, produces and sells portable electrochemical measurement devices and modules for the international market. We distinguish ourselves with a focus on miniaturisation and ease-of-use for what are commonly known as large complex devices. We develop custom devices and apps on demand for specific markets, like the food industry or point-of-care medical devices. In this case our instruments are used to analyse for example, food or blood samples for bacteria, viruses or heavy metals in the environment.

### Who we're looking for

We are looking for someone to help improving our software and apps. One important aspect of your job will be to **verify new releases** of our software to check if the software or app:

- meets all defined requirements
- works as expected by a user
- can be implemented in a situation where it has been designed for

Secondary projects you will work on include our **Software Development Kits (SDK's)** and tailored applications for third parties.

### Your profile

You have:

- a relevant Bachelor's or Master's degree
- at least four years of relevant work experience (keywords: C#, Xamarin, WinForms, unit testing)
- an eye for user interfaces

It would be an advantage if you have:

- a special interest in developing software to control electronics/hardware
- experience with Xamarin (Forms) / C#

### We offer

We are an established company with a strong market position. You will be part of an interdisciplinary team (hardware, software and firmware) developing software for instruments used all over the world in various fields of research, including medical, food, wearables, environmental, and more. We encourage initiative and creativity and to keep yourself updated with the latest trends and technologies. In return we expect involvement and a healthy sense of responsibility. We offer a competitive salary and opportunities for obtaining certifications.

Interested? Send your application with resume to [niels@palmstens.com](mailto:niels@palmstens.com), or call us at +31 (0)30 2459211
